NOTE FROM THE EDITOR

Welcome to Tweak Magazine,

The @TwistedTweakNFT community created this art magazine with the intention of sharing the unique art created by the NFT community with the rest of the world.

This week we are excited to present a special issue highlighting some of the art showcased at the Blockchain Futurist Conference. This issue is a joint partnership between several communities and people working together to bring more art to the world.

We tweaks have been proud to continue sharing the wonderful art being created by artists from all blockchains and are working to find new ways to present the works to those outside of our ecosystem. If that is you then welcome to our zany and expressive world 😊

Thank you for supporting the arts in whatever fashion you do.

-Chumwizards

P.S. Not all art presented is a static image. Artwork titles with an asterisk * are best viewed using the link to the work to get the full experience

THE TWISTED TWEAKS

Tweaks are the digital, artistic representation of many internal struggles humans face. The anxieties and complex emotions that people feel every day should no longer be looked down on, rather accepted and loved because that makes you who you are.

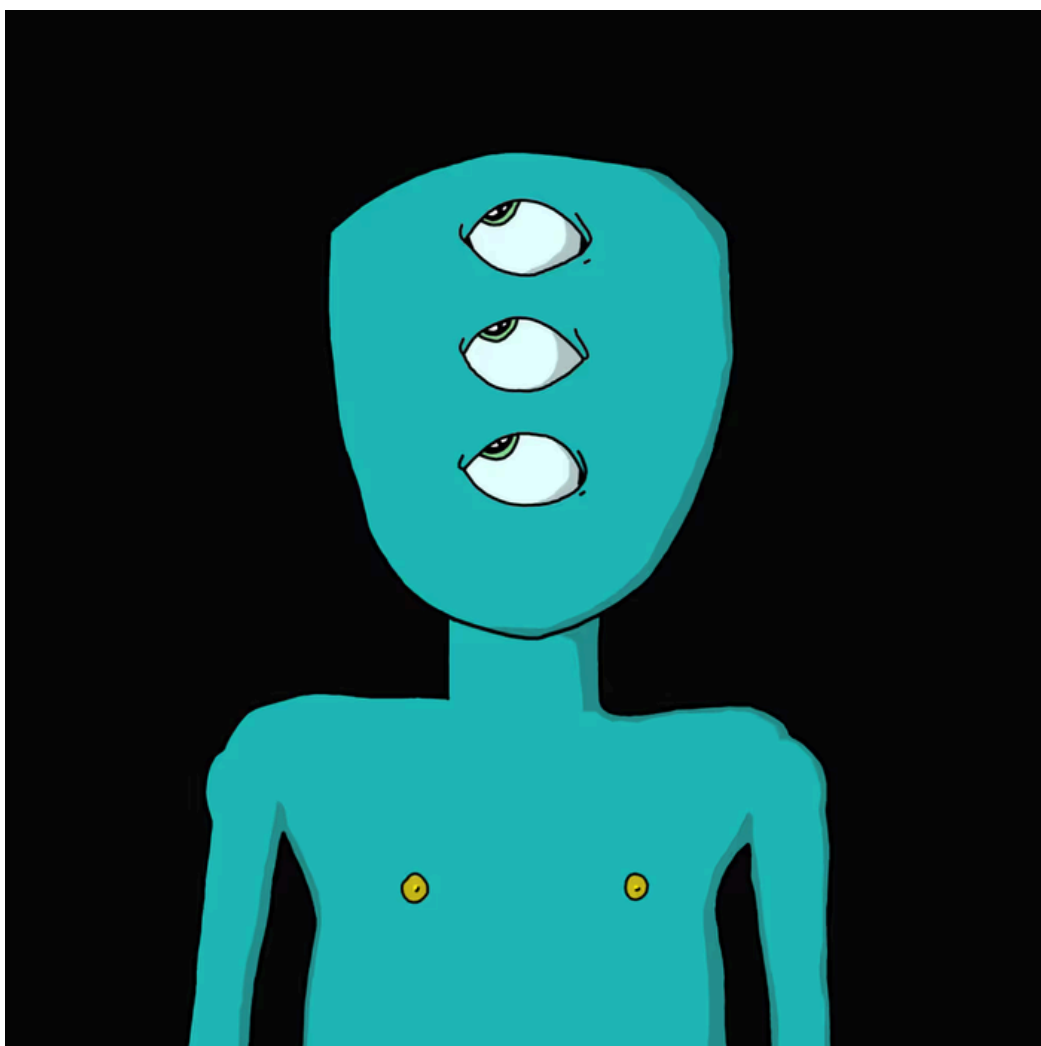

[Visit Tweak Labs](#)

Twisted Tweaks are the flagship collection for the Tweak world since 2021. Minting for over 3 years using rewards based airdrops, they are the longest minting 10k PFP collection.

You can receive a new mint by purchasing one on the secondary market.

Twisted Tweaks were created by Tweak Labs, a creative brand building at the edge of innovation in web3, AI, and fashion.

[CULTURE MONKE]

Came for the monke.

Stayed for the art.

Glitch blooms in oldcode
Experiments laugh, then merge
Monke keeps the thread

What is Culture Monke

Culture Monke is me gathering the routes my work has taken since I entered web3 in 2021 and letting them live inside one recognizable body. Glitch, texture, code systems, hand-made mess, hard edges, soft accidents - not as separate eras, but as one continuing thread. It is a checkpoint, not a recap. A way to consolidate the experiments, then move forward with a clearer center of gravity.

What about my glitch

People can get weirdly territorial about glitch. If it comes from code, a custom tool, an intentional system, or a controlled break, someone will always say it is not true glitch. That argument misses the point. My work lives in that tension: structure pushed until it fractures, rules built so they can misbehave, clean systems made to produce something unstable. If my glitch does not fit your definition of true glitch, then by definition, it is true glitch.

Why Monke

Because the monke was the obvious myth to return to. Many of us entered this space through a character, a signal, a shared joke that somehow became a serious doorway. For Culture Monke, the character holds the canvas close to his heart: part mascot, part witness, part collector, part believer. A consistent figure made sense because the styles are varied. The monke becomes the thread, and the art becomes what he carried us toward.

This issue of @TweakZine Magazine features a small selection from the CRISP curation for the Blockchain Futurist Conference 2026 in Canada, exploring the theme “Evolve” a journey through how artists are reimagining creativity, experimenting with new technologies and creative tools, and discovering new ways to express the future of digital art.

CRISP (@[crispartists](#)) is a digital art collective advancing creative expression through curated exhibitions, artist opportunities, and Web3 collaborations. The full exhibition will be presented both at the physical event and inside the Metaverse Gallery.

Goat Gallery - @[NFTgoat_art](#) Canada's first permanent digital art gallery and a driving force behind the country's digital art movement, curating the Blockchain Futurist Gallery since its inception.

Hedgie - @[hellohedgie](#) One of the original NFT projects, launched in 2018 as one of the earliest play-to-earn games, and continuing to build through every market cycle.

Afyniti - @[Afyniti](#) Where Web3 campaigns become playable through verified missions, campaign XP, character progression, and story-driven quests.

BACK TO THE FUTURIST

Verseum - @verseumapp is the official Metaverse Gallery for the Blockchain Futurist Conference @Futurist_conf in Canada, a partnership between @paladinpunks , @VAVortex ,and @LinkedByArt

bringing together physical and virtual worlds.

For the first time, the physical and Metaverse exhibitions will open simultaneously, with live streaming connecting both realities and bringing the Metaverse experience into the IRL conference.

The Metaverse Gallery is featuring the special “Back to the Futurist” curation, displayed exclusively in the Metaverse and presented alongside the physical event through live connection.

🚀 Join us for the Opening Event:

📅 July 17 July 21 & July 22 | 10 AM EST

Come experience the future of exhibitions with us. The Metaverse Gallery will remain open 24/7 for you to explore.
